2480	?Esdilagh First Nation (Alexandria)	?Esdilagh Cultural Heritage Research and Inventory	709	Alexandria	Cultural Heritage	?Esdilagh had in the past BC Capacity completed some archival research but as there are many other sources of archival information to search a more complete project is needed focusing specifically on collection of archival and traditional use information for ?Esdilagh this will better prepare Esdilagh in negotiations and work in cooperation with the ?Esdilagh Land Use Plan.	\$75,000
2468	Adams Lake Indian Band	Coordination of Referral and Tracking Program	684	Adams Lake Indian Band	Land and Resources Governance	To provide a coordinated approach to a referral and tracking process that maximizes the efficacy and efficiency of tools and processes that are already in place.	\$75,000
2485	Alexis Creek Indian Band	Alexis Creek Indian Band Land and Resource Planning	710	Alexis Creek IB	Community Vision/ Strategic Plans	Creating the foundation of Land and Resource Management of Alexis Creek Indian Band Traditional Territories.	\$74,960
R 2408	BC First Nations Energy and Mining Council	First Nations Regional Workshops: Mining & Energy Updates	7426	BC First Nations Energy & Mining Council	Multi-Sectoral Land and Resources	The BC FNEMC will organize and deliver regional workshops for BC First Nations on issues related to mining, energy and climate change projects. Sessions will include information on bioenergy strategies, negotiating agreements, as well and updates for these sectors. A Project Coordinator will also be hired to organized the workshops and be a resource for First Nations in BC to contact about energy, mining and climate change issues.	\$200,000
C 2434	Beecher Bay First Nation	BC Capacity Initiative--Community Driven Capacity Development	640	Beecher Bay First Nation	Community Vision/ Strategic Plans - CCP	Beecher Bay First Nation (BBFN) has been working on its Comprehensive Community Plan (CCP) for several years and hoped to complete the plan last year. Funding was received from BCCI through the Te' Mexw Treaty Association (TTA) to assist in completing the plan, however, Beecher Bay did not receive funding through FNIF which was needed to complete the CCP. Funding from BCCI will allow BBFN to complete its CCP and move forward with their Road Map for the Future.	\$75,000
C 2406	Bonaparte Indian Band	Bonaparte Comprehensive Community Plan - BCCP	686	Bonaparte Indian Band	Community Vision/ Strategic Plans	This project will involve the development of a Comprehensive Community Plan for the Bonaparte Indian Band, as well as building capacity internally in the areas of governance, planning and management in order to ensure active participation in the development and implementation of the Comprehensive Community Plan. The CCP will be developed using a community-based planning model that engages and values the input of all community members.	\$75,000
2401	Boston Bar First Nation	Traditional Land Use Research & Mapping	701	Boston Bar First Nation	Multi-Sectoral Land and Resources	To research, map and inventory IR lands in terms of traditional harvesting sites, sites of archeological interest, gravesites, pictographs, trade/hunting trails and original Aboriginal settlement sites. To then use this information to create a Planning guide and Resource Manual to inform us during negotiation and land development planning. The project will result in the training of two local band members in GPS, mapping and database management.	\$75,000
2412	Canim Lake Indian Band	Preservation of Traditional Knowledge	713	Canim Lake Indian Band	Cultural Heritage	To gather, organize and digitally capture the collective Traditonal Use knowledge of the Canim Lake Band before it is lost.	\$74,368

R 2474	Carrier Chilcotin Tribal Council	Southern Carrier Heritage Trail Management Plan Review and Monitoring	1076	Carrier Chilcotin Tribal Council	Land and Resource Professional Development	A Draft Management Plan was developed for the heritage trail in 1992 by the Mackenzie Trail Association and the Provincial Government. There was little involvement by the six first nation communities located along the Nuxalk Carrier route. Four of these communities are seeking funding to assess the impacts of the Mountain Pine Beetle epidemic and wildfires to incorporating this knowledge, along with aboriginal values into the 1993 plan.	\$191,116
R 2456	Carrier Sekani Tribal Council	Decision Support Systems, Land Use Training and Carbon Toolkit	1049	Carrier Sekani Tribal Council	Multi-Sectoral Land and Resources	This Project will focus on 3 key areas: 1) providing technical support to CSTC members in areas of supporting decision-making and project assessments from referrals; 2) Provide certified (4 week long) Aboriginal Land Use Planning training to CSTC and other interested First Nations; 3) Continue with the First Nations Carbon Collaborative project with the IISD, CIER & First Nations Partners in the creation of a First Nations Carbon Toolkit.	\$200,000
C 2451	Cheam First Nation	Ground Zero: The Starting Point	584	Cheam First Nation	Community Vision/ Strategic Plans - CCP	Cheam is poised to make incredible strides in community and resource development. In tandem with our developing Community Health Plan, a Strategic & Comprehensive Plan that encompasses present and future community needs must be developed. Our community embraces the potential and responsibility inherent in Aboriginal Right & Title as it relates to land and resource management. Our plan seeks to reveal the family values and respect for traditional ways that have identified Cheam as a strong, capable Nation and to build on this strength to enhance prosperity on all levels into the future.	\$75,000
2427	Coldwater Indian Band	Development of Planning Documents Related to Water	693	Coldwater Indian Band	Land and Resources Governance	Development of planning documents related to water (water use / management or drought management plans) Community Charter	\$75,000
R 2473	Cook's Ferry, Coldwater, Siska, and Nooaitch	Governance Policies & Management Development for Species of Cultural Importance	694	Cook's Ferry	Land and Resources Governance	Continuing to develop the capacity of the communities by including the community members, leadership and Esh-kn-am staff in the development of management guidelines for 5 animal species of interest and the development of governance policies for 5 plant species of interest for the over 2.7 million hectares of the Nlaka'pamux area of interest, and by providing various training opportunities for the communities and the CRMS staff.	\$200,000

BC CAPACITY INITIATIVE 2011/2012 - Approved Projects (by Applicant Name)

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
C 2428	Cowichan Tribes	Comprehensive Community Planning/ Pre-planning / Community Visioning	642	Cowichan	Community Vision/ Strategic Plans - CCP	This funding application is for CCP pre-planning which will emphasize community engagement through community meetings, working groups, news letters, posters, some door to door contact, e-mailing and other methods that we find to be effective through the pre-planning process. We would like to identify a planning coordinator, team members including a communications outreach member, and develop a work plan to guide the planning process. We also plan to identify technical support and secure funding for the entire 3 - year project during this pre-planning stage. (This entire project would most likely extend over a 3-year period, as Cowichan Tribes is the largest band in BC and is located in an urban area, with almost half of our members off of reserve.	\$74,850
2436	Daylu Dena Council (Lower Post First Nation)	Negotiation Liaison Officer	1059	Daylu Dena Council	Multi-Sectoral Land and Resources	Building on the BC Capacity Initiative project of 2010/11, the Negotiation Liaison Officer will, with the assistance of project partners, receive training in and implement new referral software, receive support in GIS mapping to develop a more technologically advanced information system for lands and resources information and enhanced ability to communicate information with Community, Chief and Council, and Kaska Negotiators.	\$75,000
2437	Dease River First Nation	Negotiation Liaison Officer	504	Dease River First Nation	Multi-Sectoral Land and Resources	Building on the BC Capacity Initiative project of 2010/11, the Negotiation Liaison Officer will, with the assistance of project partners, receive training in and implement new referral software, receive support in GIS mapping to develop a more technologically advanced information system for lands and resources information and enhanced ability to communicate information with Community, Chief and Council and Kaska Negotiators.	\$75,000
2465	Dzawada'enuxw First Nation	Dzawada'enuxw Territorial Management Capacity Building Project 2011/2012	636	Tsawataineuk IB	Cultural Heritage	The DFN will look at training community members and L&R staff in the following: <ul style="list-style-type: none"> - watershed water flow training and analyzing of river especially as it pertains to flooding - training in cultural and archaeological site identification, analysis, recording and data storage - training in acquiring archival and academic research, analysis and data storage 	\$75,000
2448	Ehattesht Tribe	Community Planning for Aquatic Resources	634	Ehattesht Tribe	Aquatic Resources	To support the negotiation and implementation of current and future title agreements related to aquatic resources, the Ehattesht Tribe must build our capacity to create aquatic resource plans that benefit current and future generations. This includes engaging members to develop a shared community vision for our fishery, building a knowledge base to support management decisions, and training local people.	\$72,650

C 2423	Esquimalt Nation	Esquimalt Nation Community Plan	644	Esquimalt Nation	Community Vision/ Strategic Plans - CCP	The Esquimalt Nation is a small urban Nation surrounded by the City of Victoria and the Town of View Royal. With Limited Land, Water & Resources, having a Community Plan is critical to the long term viability and success of the Nation. The Plan was initiated by Chief and Council in the Spring of 2009. This funding application will allow the Plan to be completed and implementation to begin.	\$75,000
R 2517	First Nations Technology Council	FNTC IM/IT Services	6231	First Nations Technology Council	Multi-Sectoral Land and Resources	The Council is seeking funding to address community gaps by implementing the First Nations Technology Council Strategy and Action Plan. They seek funding to hire a Project Manager and Researcher, delivery of training workshops and courses in the areas of GPS and records management and digitizing hardcopy information.	\$200,000
R 2421	Fraser Thompson Indian Services Society	Nlaka'pamux Resource Information Enhancement	9155	Fraser Thompson Indian Services Society	Multi-Sectoral Land and Resources	Continued enhancement of the Nlaka'pamux Nation Tribal Council community capacity as land and resource management stewards, with particular focus on wildlife and cultural resources. This will be accomplished by blending professional expertise with traditional expertise, continuing to have open communication forums and by providing advanced training and work experiences for community members.	\$200,000
2457	Gwawaenuk Tribe (Kwakwaka'wakw Nation)	Gwawaenuk Capacity Building Project 2011	627	Gwawaenuk Tribe	Land and Resources Governance	This project will set up a Land & Resource Department by training two community members in how to manage a lands & resource department, conduct traditional use knowledge interviews, store the data and incorporate into the band's GIS database. Members will be trained in using the Archaeological and Cultural Modification Identification, plotter, mapping, GPS, archival research, data management filing and storage, GIS mapping and small band referral systems.	\$75,000
2460	Halalt First Nation	Establishing a Land & Resource Department - Phase One	645	Halalt First Nation	Multi-Sectoral Land and Resources	Halalt First Nation has identified a critical need for a lands and resources department to support Chief & Council decision making in three key areas: treaty negotiations, referrals, and as a complement to comprehensive community planning. This proposal seeks to address this need by identifying and training community members who will establish & maintain a knowledge base in the lands and resources sectors.	\$75,000
2491	Katzie First Nation	Katzie First Nation 2011-2020 Strategic Community Development Plan	563	Katzie First Nation	Community Vision/ Strategic Plans	In their traditional territories east of Vancouver (Pitt Meadows) KFN has been planning for sustainable ecological, social and economic development in preparation for management of lands and resources components of settlement agreements. This project will produce a 10 year strategic plan that will consolidate and harmonize the existing plans and continue to support the evolving vision of the KFN. This project addresses capacity needs identified in the Katzie Community Plan (see strategic plan capacity gaps p 48-49 documented in KFN community plan).	\$58,000

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
2419	Kitselas Band Council	Kitselas Comprehensive Community Plan	680	Kitselas Band Council	Community Vision/ Strategic Plans - CCP	The next step towards self-government is the development of a Kitselas Comprehensive Community Plan. As an operational Land Code First Nation, Kitselas has the legal authority to manage its Lands in accordance with the goals and interests of the Kitselas Membership. This project will strategically document the long-term priorities of Kitselas Members and will provide the Kitselas Administration with the input required to make sound, transparent, and efficient decisions with respect to land use.	\$75,000
C 2497	K'omoks First Nation	Comprehensive Community Plan	624	Comox First Nation	Community Vision/ Strategic Plans - CCP	The Comprehensive Community Plan completes previous planning initiatives and also adds several new components, including: a complete community profile showing demographic and economic trends, updated mapping, and a detailed review of the development potential of lands that will be acquired through the Treaty Settlement Process. The Plan will do more that establish a picture, it will be a blueprint for the future.	\$66,950
2502	Kwadacha First Nation	Historical Land Use Legacy Project (Phase II)	610	Kwadacha First Nation	Cultural Heritage	The Historical Land Use Legacy Project builds on the Phase I successes of Kwadacha's highly committed Elders who are eager to reconnect with the land and to impart their wisdom to the communities located across their traditional territory. In Phase II, Elders knowledge will be uploaded into a modern electronic database which will preserve the information for future generations, also making it accessible across the territory.	\$75,000
C 2463	Kwantlen First Nation	Comprehensive Community Plan - Phase 1	564	Kwantlen First Nation	Community Vision/ Strategic Plans - CCP	In Phase 1 of its Comprehensive Community Plan (CCP), Kwantlen First Nation will complete the Pre-Planning (Stage 1) and Planning (Stage 2) components of the CCP and chart the course towards a sustainable future. In Stage 1, Kwantlen will assess present and future community needs and engage the planning team. In Stage 2, Kwantlen will translate a community vision and values into specific steps to realize that vision.	\$75,000
C 2489	Lake Babine Nation	Developing a Comprehensive Community Plan	607	Lake Babine	Community Vision/ Strategic Plans - CCP	LBN Chief and Council will form a Planning Team that will consist of selected membership who will work with the LBN's technical staff members and a hired consultant to develop a Comprehensive Community Plan that will address planning for all Lake Babine Nation governance, land and resources, health, education, infrastructure development, culture, social issues and the economy.	\$75,000
C 2426	Matsqui First Nation	Comprehensive Community Plan Phase 1 - Preplanning and Planning	565	Matsqui First Nation	Community Vision/ Strategic Plans - CCP	Matsqui First Nation would like to complete the pre-planning and planning stages of a Comprehensive Community Plan (CCP), while engaging with external entities to ensure harmonious visions and explore beneficial partnerships. Our project will provide for community engagement, participation and consultation that will result in a CCP constructed by the community for the community.	\$75,000

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
2415	Mowachaht/Muchalaht First Nations	Community Planning for Aquatic Resources	630	Mowachaht/Muchalaht First Nations	Aquatic Resources	To support the negotiation and implementation of current and future title agreements related to aquatic resources, Mowachaht/Muchalaht First Nations must build our capacity to create aquatic resource plans that benefit current and future generations. This includes engaging members to develop a shared community vision for our fishery, building a knowledge base to support management decisions, and training local people. Two part-time staff to receive on-the-job experience re aquatic resource planning and management, collaborative decision-making, data creation and management, project management, and communications.	\$71,150
2484	Musqueam Indian Band	Framework for Governance Negotiations	550	Musqueam Indian Band	Community Vision/ Strategic Plans	Musqueam Nation is moving forward with self-governance as a way to empower the community and to effectively incorporate traditional forms of governance while removing obstacles in current governance structures where dependency exists and create structures of independence. Chief and Council have begun initial steps to formally engage Canada in self-government negotiations. A key process will be to develop the institutions of Musqueam governance through a comprehensive engagement strategy related to Musqueam land in order to provide a framework for negotiation.	\$67,750
C 2453	Nadleh Whut'en First Nation	CCP Phase 1 - Pre-planning & Planning	612	Nadleh Whut'en First Nation	Community Vision/ Strategic Plans - CCP	The Nadleh Whut'en First Nation will begin a formal process of developing a Comprehensive Community Plan (CCP) for its traditional territory, including Indian Reserve Lands. While some planning and research has been done in the past, it has not been within the framework of a formal CCP process. This phase will include compiling historical data, contemporary data and training community members and staff for a multi-phased CCP process.	\$75,000
2446	Nak'azdli Band	Inventory of Traditional Land Use, etc.	614	Nak'azdli Band	Cultural Heritage	This project will take all the maps, audio and video Oral History obtained from the previous years and have them translated, transcribed, and put in digital format to be put into the Information Management database. This information will help design Land Use Plans. This will also help in defining the evolving governance structures and regulatory framework for land and resources management.	\$74,997
2430	Nazko First Nation	Land and Resources Management Plan	720	Nazko First Nation	Land and Resources Governance	Nazko First Nation is in Stage 4 of the treaty process and has subsequently entered into an Incremental Treaty Agreement with The Government of BC. The Incremental Treaty Agreement gives the NFN early access to Treaty Lands for much needed economic development opportunities. By March 2011 the NFN will have completed a Land Use Plan through a TRM. Based on this plan the BCCI funding will assist in the next steps to develop a lands and resources management and governance regulatory frame work plan for the treaty settlement lands and traditional territory. Chief and Council, staff and community representatives capacity will be built to understand the complexities of land and resources management and governance.	\$75,000

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
C 2518	Nooaitch Indian Band	Nooaitch Comprehensive Community Plan	699	Nooaitch Indian Band	Community Vision/ Strategic Plans - CCP	Nooaitch ndian Band Council has made it a priority to complet the community engagement and undertake a Commprehensive Community Plan using the INAC model. The Lands Manager and member Tecnicians will research technical requirements using the GIS system to build a Lands Registry Computer system database in order to effectively collect, manage, and preserve information related to reserve and custom land holdings and transactions and within traditional territory.	\$75,000
R 2414	Nuu-chah-nulth Tribal Council	Developing Nuu-chah-nulth Management Skills, Protocols, and Goals	1071	Nuu-chah-nulth Tribal Council	Aquatic Resources	Uu-a-thluk proposes to build on past projects and ready Nations for treaty and fishing rights implementation by 1) supporting Nuu-chah-nulth youth and adults to develop skills related to aquatic resource management, and 2) by supporting the Uu-a-thluk fisheries forum to effectively guide the work of Uu-a-thluk and support Nuu-chah-nulth Nations in their negotiations with DFO on fisheries issues.	\$198,528
R 2443	Okanagan Nation Alliance	Okanagan Nation Land Use Plan Phase IV: Implementation and Integration	1016	Okanagan Nation Alliance	Land and Resources Governance	This year the three previous phases of work on the Okanagan Nation Alliance (ONA) Land Use Plan (LUP) will be Implemented and integrated in practice. To do so, the ONA and Member Bands will utilize the Web Atlas and the Okanagan Nation Alliance Decision Support System (ONADSS) in accordance with the draft Cooperative Protocol Sylix (Okanagan) Territory (CPST). The LUP Implementation Plan from 2010-11 will provide the strategies to follow. The ONA will influence land use decisions in the Territory in accordance with the community based LUP.	\$200,000
C 2477	Pacheedaht First Nation	A Community Vision "Iisaak - respect with caring"	658	Pacheedaht First Nation	Community Vision/ Strategic Plans - CCP	The purpose of the project is to continue to develop a comprehensive community plan which includes a land use plan, a communications plan and a documented and passed strategic plan that highlights a community vision; To bridge communication gaps between members, staff, Chief and Council and to inform, educate and share information.	\$75,000
2405	Quatsino First Nation	Development of the in-house capacity to track and respond to referrals	633	Quatsino First Nation	Multi-Sectoral Land and Resources	Tracking and responding to referrals are key to the consultation and accomodation process. Development of the skills and technical capacity to manage their own affairs are steps by a First Nation to self-sufficiency. A community vision that reflects the future a community sees for the territory is needed to inform decisions pertaining to the use and management of lands and resources. This project is focused on addressing these key gaps the Quatsino First Nation needs to advance community interests and values in negotiations, consultations and decisions pertaining to lands and resources within Quatsino territory.	\$75,000
C 2506	Shackan Indian Band	Comprehensive Community Plan Implementation	698	Shackan	Community Vision/ Strategic Plans - CCP	This project will allow us to complete our Comprehensive Community Plan adopted by the community and Chief and Council and begin managing it effectively. Our project will also allow us to be prepared to negotiate claims, consult in land referrals, and discuss potential economic development initiatives associated with our lands in a timely response that is often encumbered by not having information readily available.	\$75,000

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
2450	Skeetchestn Indian Band	Skeetchestn Indian Band Place Names Data Collection	687	Skeetchestn Indian Band	Cultural Heritage	Funding is to gather more data to build upon the original Places Names project (B.C.C.I. 09-10). The funding will go towards training, elder interviewing for pertinent stories and other info, G.P.S. data collection, Cultural Heritage Assessment and photographic records of various locations. The accumulated data is to be stored on our G.I.S. database for future reference and use in responding to referrals and informing Rights and Title negotiations.	\$75,000
C 2435	Spuzzum First Nation	Spuzzum Comprehensive Community Planning Project	708	Spuzzum First Nation	Community Vision/ Strategic Plans - CCP	The Spuzzum First Nation is seeking opportunities to continue to develop and implement their Comprehensive Community Development Plan. This initiative is an opportunity for our members to reflect on how we would like our community to develop in the future. The CCP will address key issues of priority to our members including governance, land use and management, infrastructure, culture, social and economic development.	\$74,540
2471	St. Mary's Indian Band	St. Mary's Indian Band Strategic Land Use Plan and Spatial Analysis	602	St. Mary's	Land and Resources Governance	Development of a Strategic Land Use Planning Framework, through mentorship and community-based consultative approaches, that aligns with our community's Strategic Plan and furthers SMIB's governance and management capacities. A substantial component of this project is to complete spatial analysis through pre-collected data of our lands and natural resources so as to increase information and decision-making capacities.	\$75,000
R 2467	Stolo Nation Society	Technical Infrastructure for the Development Referral Review Process	1126	Stolo Nation	Land and Resources Governance	The Stó:lo Research and Resource Management Centre (SRRMC) has been mandated by Stó:lo Nation to substantively address referrals by implementing a Development Referral Review Process. The SRRMC is applying for funding to construct the technical infrastructure to support this process. The primary goals are the creation of integrated TLU and referral database-geodatabases and the development of a web portal for delivery.	\$156,960
2472	Takla Lake First Nation	Continuing our Pathway to Land and Resource Planning for TLFN	608	Takla Lake First Nation	Land and Resources Governance	Takla will address specific gaps in our ability to effectively respond to land and resource developments in our territory and make further advancement towards a Land Use Plan by increasing our database of cultural resource information, providing training in skill essential to land use planning and resource management, and by ensuring that Keyoh groups and Band membership are directly involved in the planning/ negotiating processes.	\$75,000
2404	Taku River Tlingit First Nation	Land and Resources Capacity Building Project	501	Taku River Tlingit First Nation	Land and Resource Professional Development	Employment Skills Training to educate Taku River Tlingit First Nation Citizen's in key areas that support consultation, negotiation and management of land and resources. The training will enhance their capacity for implementation and management of current and future agreements. Training for land and resources on how to reply to land referrals.	\$75,000
2478	Tl'azt'en Nation	Tl'azt'en Nation Land & Resource Planning and Policy	617	Tl'azt'en	Land and Resources Governance	Management of Lands; Overall community vision and strategic plan for land use planning. The ability to compile all data into one universal dataset managed by the Natural Resources staff and usable by Tl'azt'en departments and Tl'azt'en in general.	\$75,000

BCCI - File #	Applicant Name	Project Title	Rcpt #	Recipient Name	Project Category	Project Synopsis	BCCI \$ Recommend
2490	Tsawout First Nation	Tsawout Traditional Use Study and Capacity Building Program	654	Tsawout FN	Cultural Heritage	This Project provides for the implementation of Tsawout First Nation's Douglas Treaty Aboriginal Rights & Title Strategic Plan - already completed. A key part of this plan is the development of a Tsawout Traditional Use Study (TTUS) to support local cultural education, the management of cultural resources, the protection of Douglas Treaty Rights, and includes community training in consolidating currently held TTUS and the collection of additional oral history.	\$75,000
R 2499	Tsilhqot'in National Government	Environmental Monitoring/Mining Policy Development Program	9097	Tsilhqot'in National Government	Multi-Sectoral Land and Resources	This project will enhance the Tsilhqot'in National Government's capacity to engage with mining industry, and address environmental monitoring issues through development of a mining policy, and training of environmental technicians or monitors. The TNG's ability to engage with the mining industry on a technical level will also be improved with greater GIS skill development, hardware and software.	\$200,000
C 2417	Whispering Pines Clinton Indian Band	Implementation and Monitoring of our Comprehensive Community Plan	702	Whispering Pines/Clinton Indian Band	Community Vision/ Strategic Plans - CCP	This project will allow us to finalize our Comprehensive Community Plan by implementing the social, cultural, environmental, and economic issues related to our lands and resources. This project will prepare us for timely responses to any issue, which is often encumbered by not having information readily available enabling us to determine and document our lands and resources and how to manage them effectively.	\$75,000
2500	Xat'sull (Soda Creek Band) First Nation	Resource Planning & Guides - Phase I	716	Soda Creek	Multi-Sectoral Land and Resources	Xat'sull is working cooperatively with a couple different mining and energy companies and are finding that more guidance is needed as to the best practices to mining and energy development. This project would be to develop a Mining & Energy Best Practices Guidebook. This would help in fulfilling further work needed as directed by the Xat'sull Land Use Plan.	\$75,000
2445	Xaxli'p Community Forest Corporation	Xaxli'p Community Forest Landscape Restoration Plan	592	Xaxli'p	Community Vision/ Strategic Plans	The XCFC Landscape Restoration Plan (LRP) combines the Xaxli'p Traditional Use Study (TUS) and Ecosystem Based Plan (EBP) into a plan that provides practical guidance for eco-cultural restoration activities that are aligned with the TUS and EBP. Capacity building includes community participation in the preparation of the LRP, and training for Xaxli'p and XCFC Board and Staff in the implementation of the LRP.	\$73,130
2409	Xeni Gwet'in First Nations Government	XG Land & Resource Governance Structure & Regulatory Framework	714	Xeni Gwet'in	Land and Resources Governance	Xeni will hire a community member as project coordinator working with consultants to undertake community meetings with elders, youth and leadership as well as undertake review of Xeni existing plans and examine constitutional governance models. This project will focus on building and retaining community capacity while focusing on land and resource management and governance in a constitutional context for the XGCA.	\$75,000
